

Thomas Jefferson P Lopes

Professional experience

Profile

Technical Web and Desktop programmer/Developer, familiar with Open Source. Scientific Researcher, I have extreme easiness in learning new technologies, and what we can innovate in the question of its applications.

Employer History

07/2007 - To date

IBM - Industrial Business Machines, São Paulo, Brazil Web Builder

In the IBM.com department (GWPS), I develop the IBM.com web pages, using XHTML, XML, JSP, CGI and deal with other web technologies like web servers and services. Also, contact with clients, around the world, via Sametime IM Client and weekly Volp teleconferences.

In my spare time here (when I'm not doing the job mentioned above), I work (and learn) in an innovation committee focused in Web projects (GTT), which efforts brings client can feel solutions and also speed-up tools for the entire web builder team. This committee also has bi-weekly meetings where teammates can make brainstorm and sharing his innovation ideas.

02/2002 - 07/2007

(Paralell Activity: Webdesigner as Free-Lancer), Itapevi, Brazil WebMaster/WebDesigner/WebDevelopes/IT consultancy

I developed, in my vacant hours, diverse works as to free-lancer for companies and commerce of the region where I live. Some examples can be seen in <http://www.trc-design.com/>. Such projects involved since simple pages HTML until database-driven systems of register and control through the web.

05/1999 - 07/2007

PEREIRA LOPES CONFECTIONS LTD, Itapevi, Brazil General IT Manager

I worked most of the time without register exerting functions of Art, in Corel Draw and Photoshop applications; In the administration, developed databases for better performance of the company, taking care of it's both financial and asset administrative part. Also, I developed the Internet site of the company. It has approximately 5 years I was registered as partner of the company, in which still I exert my functions in the vacant hours.
